

## William "Bill" Kelly

Bill Kelly August 17, 1952- February 2013

Bill worked on and rode Harley's, much like his brother, Bob. He also grew up in Syracuse and attended Henninger High School. He joined the United States Navy, in the 1970's. He met and married Patty Mahon, they had two children, William Jr., and Michael. They lived in Syracuse area before Bill got a job at Boeing, in Washington. He traveled all over the world doing tech support for Boeing. He also spent time in Japan. The last years of his life he lived in Boise, Idaho with his second wife Barb. Just shortly before his death I spent time with him, he was looking into getting another bike, yes he also had more than one, he wanted a trike, feeling it would be easier to ride due to some health issues. I visited with him in November of 2012, and he passed a few months later. He passed away peacefully one night, February of 2013. He was an avid biker also, but not as much as his brother. He owned several bikes and liked to work on them, with the advice of his brother, ha ha.
